16 May 1966

MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : Tentative Briefing Schedule for Rear  
Admiral Gayler and Rear Admiral Callis.

1. Several days ago you requested that I contact TSD, COMMO, and NPIC to determine the extent to which they would like to participate in a briefing of Adm. Gayler on their technical work.

2. Adm. Gayler was recently briefed on NPIC's substantive work, and they believe their technical work would also be of interest. They concur that it would be most effective if the briefing could start at NPIC, after which Adm. Gayler could travel to Headquarters for the remainder of the briefing.

25X1C  
25X1C

4. COMMO feels that the Navy has substantially the same staff communications equipment that we have, and therefore would gain little from a briefing on this area.

[Redacted] I told them we would not expect them to participate, but I would mention this to you.

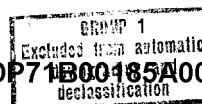

5. Tentatively then, the attached schedule shows the sort of thing we might be able to do.
